

ZILLMAN ROAD AND GERLER ROAD INTERSECTION UPGRADE

Dedicated to a better Brisbane

Message from the Lord Mayor

It is with great pleasure that I announce the upgrade of the Zillman Road and Gerler Road intersection at Hendra. The upgrade will provide important safety improvements to the intersection. I look forward to delivering this intersection upgrade for Hendra.

About the project

The project will involve installing new traffic signals and turn pockets at the intersection to improve traffic flow. Some informal parking will need to be removed on Zillman Road and Gerler Road approaching the intersection to facilitate the upgrade.

This intersection is an important junction for local residents, providing access to Sandgate Road, Nudgee Road, Racecourse Road, and local shopping centres; with Zillman Road carrying approximately 15,000 vehicles daily and Gerler Road carrying approximately 7000 vehicles daily.

Any tree removal required for the upgrade will be offset through new plantings within the project and surrounding area, in accordance with Council's offset planting guidelines.

The project is part of Brisbane City Council's \$49 million commitment in 2015-16 for suburban road and intersection upgrade projects as part of our drive to keep Brisbane moving and is jointly funded by the Queensland Government under the Transport Infrastructure Development Scheme.

Work on the upgrade is anticipated to start in early 2016. Residents and businesses in close proximity to the project will receive further information prior to works starting.

Graham Quirk
Lord Mayor

A safer intersection

The upgraded intersection will include:

- new traffic signals at the intersection
- right-turn pockets on Zillman Road and Gerler Road
- signalised pedestrian crossings on Zillman Road and Gerler Road
- removal of some informal parking along Zillman Road and Gerler Road
- upgrades to bus stops
- removal of some street trees.
